| BY AMATEUR RADIO AND IMPEDIMENTS |) | |
| TO AMATEUR RADIO COMMUNICATIONS |) | FCC Docket No. GN 12-91 |
| |) | |
| FCC PUBLIC NOTICE DA 12-523 |) | |
| |) | |
| To: The Commission |) | |

The Public Notice **Background** starts out with a statement to the fact of individual participation of the Amateur Service in times of emergencies. A individual and a individuals station license. There can be no more valuable of a communication arm to integrate with other services and authorities.

The Commission and all Agencies **must beware of flaws and dangers inherent to exercises and actual emergencies, when conditions require all available communications in a very high tech dangerous World!**

Pogo said it best, "We have met the enemy and he is us."

Individual hams are a an exemplary asset. However, this document will demonstrate a **WARNING** in regards to entities with other hidden goals, profiteering and agendas.

March 27th, 2012 I was attacked by an email that took all sorts of tolls, hours of computer system repairs and personal distress to the nature of the event. When read it may to some seem trivial, but at 70 years of age, with a family, career, regular Army, National Guard and Reserve as a Commissioned Officer, I have taken this very seriously. To protect myself and my country all this must be documented. This is real time happenings being documented.

A letter dated April 18th, 2012, made part of this Public Notice Comment to: David Sumner, K1ZZ, Chief Executive Officer and Secretary, American Radio Relay League, the National Association for Amateur Radio, and a perpetrator Stephen W. Szabo, WB4OMM, residence 536 Central Park Blvd., Port Orange, FL 32127, now a Federal Contractor teaching Emergency Management, Law Enforcement, Weapons of Mass Destruction, Weather Induced Emergencies, Critical Incident Management, Incident Command Systems, National Incident Management Systems among other ARRL and emergency affiliations.

The ARRL organization is a self proclaimed representative to Amateur Radio, but in essence a publishing company with volunteers. The letter of April 18th, 2012 did not get a response. Proof that they do not represent the individual member. It is just a magazine subscription.

Stephen W. Szabo, WB4OMM, attack trigger email March 27th, 2012 contained N-WORD/s, Talaban implications and **janicenetwork.com** - © 2012 Keywords Spy Keyword Spy currently operating in 300 countries. This demonstrates how a sleeper, traitor and spy can operate as an Amateur Operator for others and be a **FORWARD OBSERVER*** to enemies of the United States of America.

***FORWARD OBSERVER**

This is a real treat to our Nation in any kind of emergency to be aware of, not necessarily an individual, trained Incident Command (ICS) – FEMA person using strict procedures and protocols. Strict monitoring is required for suspect communication out of a ICS area, by any personal, such as hand written messages, telephone, radio (other than Command Net) and use of the Wide World Net. What we used to call fifth column, a group of people who clandestinely undermine a larger group such as our nation from within, is still more then ever alive.

It is worth while to include The Fister's Creed as part of this comment to the Commission.

"First and Foremost, I am the Greatest killer on the Battle field. Without me the King of Battle ceases to exist, The Queen of Battle cannot survive! Ask anyone on the battle field who is their savior, They will send you to ME.

Who am I? Those I consider friends call me "Fister." Those who fear me call me a high payoff target. As I hunt my enemy, my enemy hunts me, as my enemy attempts to kill me, I wipe him off the face of the Earth. For I determine the out come of war, but if I am not there, the war has no direction.

You see, I have the power to call upon the Demons of War; the mortars, artillery, MLRS, naval gunfire, attack aviation, and the fast movers. These are my "Tools", my instruments of death. My greatest tool, however is my radio! Whether it is on my back or on a platform, I possess the gift of gab with a touch of finesse. And I employ these tools, my power grows.

Power corrupts, and absolute power corrupts absolutely. But in my worldly endeavors the spoils of war have yet to diminish my quest for peace.

As I do my job, I help write history of wars, past and of those yet to come. But in the pages that I turn, I have yet to read the words "Forward Observer, Fire Supporter, F.O. or Fister."

*I am all of these! So it is vital that you learn my name, Vital that you learn to use my talents, Vital that you learn to trust me. Be glad that I am at your side and that I am on your side.-
I AM THE KING OF BATTLE, AND THE EYES OF DEATH!
I AM A FISTER!*

What is not needed in an emergency area is a sleeper, traitor or spy, operating for our enemies.

THE FOLLOWING DOCUMENT
within this Comment
is the Letter to:

David Sumner, K1ZZ, Chief Executive Officer and Secretary, American
Radio Relay League, the National Association for Amateur Radio

65 Pine Lake Drive
Cumming, GA 30040-5957

David Sumner, K1ZZ
Chief Executive Officer and Secretary
American Radio Relay League, the
National Association for Amateur Radio
225 Main Street
Newington, CT, 06111-1494

<<<USPS - CERTIFIED MAIL>>>
<<<7001 1940 0000 5419 8733>>>

Dear Mr Sumner,

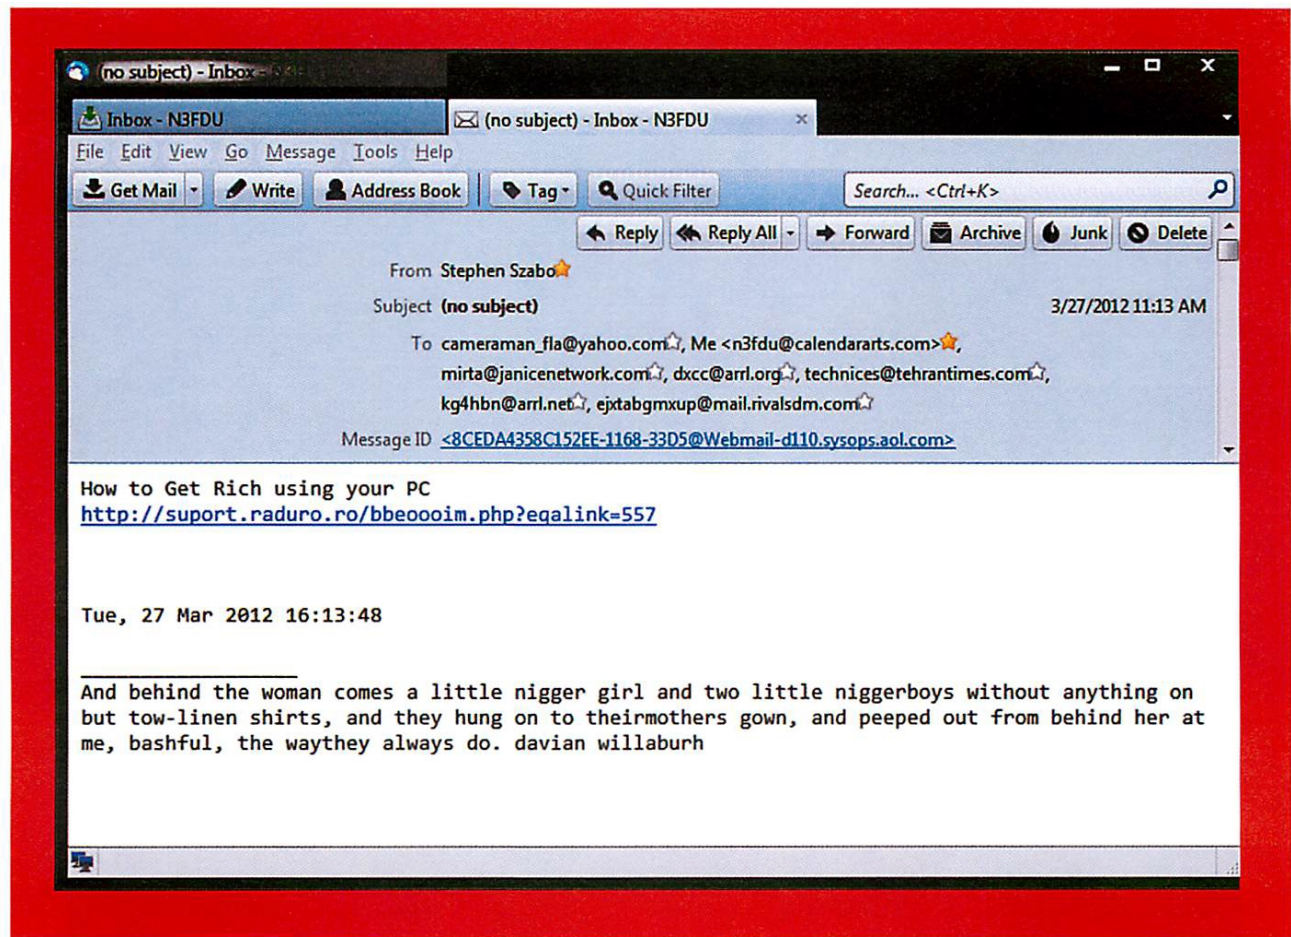

This is now on your watch, your responsibility to address, and is time for the ARRL to address some serious short comings in the interest of amateur radio, our nation and it security. The serious nature of material within this document is going to be made part of Federal Communications Commission, DA 12-523, a PUBLIC NOTICE, asking for: "COMMISSION SEEKS COMMENT ON EMERGENCY COMMUNICATIONS BY AMATEUR RADIO AND IMPEDIMENTS TO AMATEUR RADIO COMMUNICATIONS". (REPLY) The Commissions number one statement is commentator's may also address questions not set forth below in instructions that relate to the topics of the study to be submitted to Congress. Note, there are all sorts of ways, that what is contained here, can be made public record.

Responsibility of my action all rests upon one individual, Stephen W. Szabo, residence 536 Central Park Blvd., Port orange, FL 32127

1. A Licensed Amateur Radio Operator. WB4OMM
2. An officer (Treasurer) of the Daytona Beach ARA
3. Former Daytona Beach Police Officer
4. A Federal Contractor, CCR Federal Contracts
5. Instructor 2003: Emergency Management
6. Instructor 2003: Law Enforcement
7. Instructor 2003: Weapons of Mass Destruction
8. Instructor 2003: Weather Induced Emergencies
9. Instructor 2003: Critical Incident Management
10. Instructor 2003: Incident Command Systems
11. Instructor 2003: National Incident Management Systems
12. Daytona Beach ARA, Currently License Trustee K4BV
13. Daytona Beach CERT ARC President and License Trustee N4DAB
14. ARRL District Emergency Coordinator - East Coast District - NFL Section

This individual, Stephen W. Szabo, at what was best said by current Daytona Beach ARA President John W. LoCicero, K4TUG, "Steve has gone rouge". Reference here is to his actions behind the back of the board of Daytona Beach ARA, an email attack on me then another on all members using bad language, both addressed to the board in the Month of March. The actions seem to be around some dirty little secrets, I treated as hear-say, sexual, bad things, nothing to do with me, but involving Steve W. Szabo, an individual with problems, a person that is a controal freak.. March 27th Steve sent the following email, into my in-box. This immediately called for, on the same day, requiring a response, for me to do anything required to protect myself.

This email is also directed to the American Radio Relay League, the National Association for Amateur Radio, ARRL DXCC Desk at league headquarters. dxcc@arrl.org . . .thus you people are part of the this attack.

Screen Shot of email.

I fired off a reply this same date, DBARA board, March 27th . I removed myself from DBARA club membership. Part of the necessity to combat the situation, documents and letter was sent by USPS CERTIFIIED MAIL 7001 1140 0003 8944 5272 to Michael Chitwood, Police Chief, Daytona Beach Police Department, 129 Valor Blvd., Room 3001, Daytona Beach, FL 32114-8169.

In this communication, what follows is the forensics of an email threat, sent for a reason, a poor camouflaged attack at best, but an attack. Note a different email address was used by Steve, then other emails sent. The configured quote using Nigger twice, stands out as being Gay, a person being a pedophilia, liking boys more the girls, link to the Taliban, a possible sleeper treat. The action is one, not to be tolerated, in a very dangerous world.

Forensic Breakdown

- (no subject) *a hope for not being read possibly.*
- **AOL** email account used by Steve instead of his **CFL.RR.COM** account.
- 1st email address is ambiguous. *Hidden agenda possible.*
- 2nd email addressed to Me <N3FDU>
- 3rd email address **janicenetwork.com** - © 2012 KeywordsSpy.com KeywordSpy currently operates in USA, United Kingdom, Australia and Canada. Through this keyword tool and keyword software system, one can perform advanced keyword research and keyword tracking, to study person or persons of interest. Getting complete in-depth analysis, stats, etc. Internet spy-ware! Real-time tracking of keystrokes Google, Yahoo and Bing. Cloaking technology, deep analysis of 300 networks with daily updates. This email, with the female name Mirta is viewed as a trigger. The KeywordSpy Agency package delivers the perfect pairing of providing "more search queries + more exports" The ability to target countries with world wide use and agenda. **Stalking!** Have proof from my system to this activity.
- 4th email address appears to be totally bogus, hammy radio, to through one off. ARRL DXCC Desk at, dxcc@arrl.org does not make any sense being part of this email or it has a alternative use. Reference to the under signature **Nigger** quote, a slip or intentional Steve. Possible a ploy for a (no subject) email to be deleted by recipient. Steve, a ham, sending ARRL, **NIGGER!**
- 5th email address. technices@tehrantimes.com Technices, meaning good masturbating, referred at: <http://en.allexperts.com/q/Masturbation-1658/Good-masturbating-technices.htm>. The dot com is the address for **Tehran Times** that began its work in 1979 as a foreign language newspaper to air the voice of the Islamic Revolution. Ayatollah Ruhollah Khomeini, with all the mix of the **Taliban**, enemies of Israel and all that America has lost some of its best too. Steve using this address brings to mind only the question, is Stephen W. Szabo, a traitor, a sleeper, or to try and discredit people of his choice, get them on no fly lists or worse.

TEHRAN TIMES

Last Update: 27 March 2012 19:33 GMT

Volume: 11393

- 6th email address kg4hbn@arrl.net, a Steve reason, possible trigger.
- 7th email address ejxtabgmxup@mail.rivalsdm.com This has ties to Fifth Floor – The Warehouse Building, 24 Alfred Street, 8001, Cape Town, South Africa,, with domain administrator based in Great Britten. A Steve reason, possible trigger.

- How to Get Rich using your PC, links only a page 1 of 1, with only the name CYKE appearing, The Urban Dictionary: Cyke commonly referring to someone as a cunt/dyke. or a cyke. so basically anyone who is a jerk, bitchy or just being a plain ass of themselves. an insult towards someone. CYKE is what appears when clicking Steve's link in this email. Another trigger.
- The Quote, **this is an email feature**, placing automatically in ones email a special text. The quote as it appears here, a slip by Steve, using an AOL email account, viewed as a gay, the reference to *"little nigger girl and two little niggerboys"* indicates an individual being a pedophilia, liking boys more the girls, **a statement!** Steve has put this crap out there for everyone to smell. **THIS IS MORE THAN AN ATTACK!**

The Forensic Breakdown is verbatim as submitted to Chief Chitwood. Ninety-seven (97) emails, with the complete documentation as sent to Chief Chitwood, were sent out to DBARA members, with a list provided by a club officer. I was told that under aged were removed because of the content.

I am 70 years old, a musician, printer, served my country, Regular Army, National Guard, and Reserve for 17 years. A US Army Commissioned Officer. My metal says I have to do everything in my power to protect myself from this attack. I do not need to face any dishonor, a no fly list or worst by the actions of any moron or traitor to this country. The email by Steve W. Szabo, opens up many reasons to investigate, and at the very least inexcusable. It asks the question, were does the American Radio Relay League, the National Association for Amateur Radio fit into this and the email authored by Szabo.

The Daytona club has ties with training area youth, education, Ponce de Leon Inlet Lighthouse & Museum youth programs, and space coast astronaut youth awareness programs. They are doing good work, that one individual should not put into jeopardy. For that matter, local, state and the nation.

I, like most amateur radio operators, am self trained. Hams a hardy group, are there to further mans use of technology, innovative, and serious about support and being ready to support their community and the country in all times of need, at what they are good at and prepared. The individual in question here needs to be in the scrutiny of DA 12-523, others as the treat he is to all.

When I was a citizen of Florida, I attended the Governors Hurricane Conferences in Tampa. I have a Certificate issued to me for successful completion of I-200: Basic Incident Command System, dated July 12, 2003, issued by the Florida Division of Forestry. It was around this time I enrolled in a internet course offered by the ARRL. There was problems with the interface, a school move and I was locked out of the system. Correspondence with the League, I received an email that offered me a refund or I could chose another course. Southeastern Division Vice Director *Sandy Donahue*, W4RU (now a silent key) at the time talked me into going for the antenna course. Sandy, highly recommended this to me as he said a great deal of effort and money had gone into this program. Never got the course or my money back. ARRL LEFT ME DOWN! I latter turned over my paperwork to Sandy, but to no avail. The American Radio Relay League, National Association for Amateur Radio is first a publisher. The claim you people have is that you represent the individual member, hobby in all matters, which I question. I am a member because you are the only game in town.

You are in this now for the same reason I am, the March 27th email and its implications.

And behind the woman comes a little nigger girl and two little niggerboys without anything on but tow-linen shirts, and they hung on to theirmothers gown, and peeped out from behind her at me, bashful, the waythey always do. davian willaburh

2 of 2 3/27/2012 9:08 PM

One cannot fathom Szabo's, who's life's work, any other credentials, are effected by this act. The quote, a slip up of his using another email account, maybe. One thing is evident and that is it's a trigger. My actions were ordained by the email dated March 27th of this year. The only tool I have is to report it to all agencies, that should have control over the protection of all. I take it very seriously that it is a vicious attack on me number one. How others in the email *TO: list*, including the American Radio Relay League, the National Association for Amateur Radio, is worthy of investigation. A scary security breach, for a CCR Federal Contractor. Not mentioning amateur radio ties, National Security protection of all.. The spy-ware thing, question is, what would expensive software, being used in 300 countries, would one individual be using, other then being a plot of others.

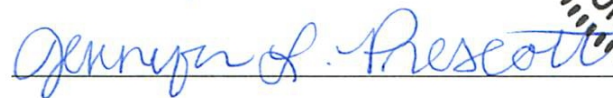

I am an Orthodox Christian. I spent almost a month in Russia and the Ukraine in 2009. In my retirement I am doing reproductions of century old Eastern Orthodox Icons to modern day. Two Thousand years of Christ's Own Church. This is why a no-fly list over my head, by the action of this individual is an intolerable situation. Excluding this treat, there is the issue of safety that I can now face, in other countries. The path that I have chosen now, as an Iconographer, to serve Lord Jesus Christ, is truly threatened by this Demon of the Devil.

It you look at the Saints, you will be quick to notice the *trials, tribulations turmoil and demise of being a Saint*. Amateur Radio has a Saint. **Saint Maximilian Maria Kolbe**. Polish: Maksymilian Maria Kolbe; 8 January 1894 – 14 August 1941, the only canonized saint to have held an amateur radio license, with the call sign SP3RN. If you are up to reading his full story it is heartbreaking. SP3RN is still listed on the QRZ database.
